

**DATE:** May 19, 2015

## *Pre-Kindergarten Booster Clinics*

Children between the ages of 4-6 require boosters of their childhood immunizations. These boosters are generally done prior to entering kindergarten, and may include three different immunizations:

1. Tdap-IPV – Tetanus, Diphtheria, acellular Pertussis, and Polio
2. MMRV – Measles, Mumps, and Rubella and Varicella
3. Pneu-C-13- Pneumococcal Conjugate 13

Brandon Public Health is holding pre-kindergarten booster clinics:

Tuesday, June 9th | 9 a.m. to 2 p.m.  
Wednesday, June 10<sup>th</sup> | 1 p.m. to 6 p.m.

Public Health Office -Town Centre  
800 Rosser Ave, Brandon, MB
