

VOLUNTEERS NEEDED!

Join our Community Volunteer Income Tax Program

Fact: income and health are directly related.

Better income can lead to better health, education and well-being.

Completing an income tax return can improve income by providing access to federal, provincial and local benefits and programs.

The **Community Volunteer Income Tax Program** is a free service to help low-income individuals with simple tax situations complete and file their income tax and benefit return.

Be part of the solution! Lend a hand!
