*P*alliative care is a commitment to whole person care that helps relieve suffering and improve the quality of life for those who have a life limiting illness that cannot be cured.

A Common Hope:

*A*t some time, in some way, we must all face the end of life. And most of us share in a common hope-that when death comes, it will be peaceful and free of pain. We hope to feel safe, be comfortable and be surrounded by those we love.
